

# Ephesians 5:19-21

## Fellowship Challenge

Every week, do each of these five things at least one time. You can do them all in one interaction or spread them out.

Over the weeks, try to do these with various people. If you tend to do these things with your spouse, then do some with other Christians. If you tend to do them with other Christians, then do some with your spouse and family.

You can do these with one other person or a group. You can do it in person, on video or the phone.

- Speaking psalms is like telling one another about what God has done and is doing in our lives.
- Speaking hymns is like sharing biblical and theological insights, truths, with one another.
- Sing spiritual songs, to the Lord, with other Christians. This doesn't have to be just for Sunday services. You can do it with your family or in a church group.
- Talk with one another about what you are thankful to God for, then pray together to thank God for those things.
- Submitting means we are to allow ourselves to be led and influenced by other Christians. So, seek the counsel of another godly person about something going on in your life. It can be your spouse, kids, friend, pastor, elder.
